## Fact Sheet: Fall 2019 Freshman and Transfer Admissions

The following admissions data are preliminary, reflecting admission offers as of June 21, 2019.

The graphic below illustrates the application and admissions cycle. The data presented below is subject to change as campuses continue to admit additional students from their waitlists and verify that conditions of admission are met. Yield on admission vary depending on the point in time as students who initially accept an offer of admission change their plans over the summer (referred to as a "melt"). Final enrollments are reported by campuses in November and available to the public in December.

The preliminary data supports the following:

- UC continues to honor its commitment to the California Master Plan for Higher Education by guaranteeing freshman admission to a UC campus, though not necessarily to the campus of choice, to students in the top 9 percent of their high school or top 9 percent of the state.
- UC admitted the largest class of California Community College transfers in the history of the University – over 26,500 California community college students (including about 23,000 residents) – advancing UC's efforts to enroll one new California resident transfer student for every two California resident freshmen.
- UC expects to increase total 2019-20 California resident enrollment by 2,500. That is on top of the more than 14,000 additional California residents that UC has enrolled over the last three years.
